

YOUR ENVIRONMENT MANAGED

MANAGED SERVICES

Blackbird IT manage more than just your devices, we manage your entire environment. We take a combination of services to form one solution for your institution.

Device Management	Identity Management	Data Management
Software Services	Managed Network	Managed Servers

Whether on premise, private cloud or public cloud Blackbird IT can deliver a managed solution that meets the needs of your Educational Institution.

MANAGED DEVICES

Always keeping our solutions tied in with best of breed, your Apple devices are managed securely with a range of software solutions available. After a consultation with leadership, we will determine the best option for you.

There are many components that lead to a successful rollout of managed Apple devices, which include:

- Device Enrolment Program (DEP)
- Apple School Manager (ASM)
- jamf PRO or jamf SCHOOL (MDM)
- Aruba or Ruckus Wireless Networks
- Blackbird IT Engineering

IDENTITY MANAGEMENT

Ever since Apple enabled federated authentication for Azure AD schools and business alike can take advantage of a true single sign on experience. Azure AD now tied in to your Managed Apple IDs allows users to have the same account for all their Apple and Microsoft services (including device access).

Whether pre-existing or a new implementation of Azure AD, The Blackbird IT Apple Team can engineer this solution for you.

MANAGED SOFTWARE

Keeping track of all your software can be a real hassle and if not managed properly, can be very stressful. Let Blackbird IT take the pain away by managing all your software for you through our Managed Software Program.

Transparency is key, so you will have access to all your licensing information, renewals, monthly expenditure through our documentation platform. You can opt to have reminders for renewals sent or approve renewals in advance with our Sales Support team!

MANAGED CASHFLOW

Cashflow is important, one of the most important parts of any institution, business or government. Knowing this, Blackbird IT ensures that all of its solutions are available to all our clients. All hardware, services and software are available to be charged monthly, avoiding large upfront payments.

For more information on Finance and Monthly Managed Services, reach out to one of our Account Managers today!
